

MONTEREY SPINE & JOINT PHYSICAL THERAPY

POWERED BY

Monterey Spine & Joint is proud to announce a unique partnership with the San Francisco 49ers. This partnership will provide the clinic with the advantage of drawing from the experience the 49ers' have in sports rehabilitation as well as the ability to participate in clinical development and training programs from medical professionals and research institutions throughout the country.

Monterey Spine & Joint Physical Therapy is looking forward to being heavily involved in community service programs such as providing free injury clinics and sports physicals for local high school athletes. We will strive to connect with local athletic trainers, strength coaches and personal trainers in all realms of fitness in order to improve upon their already high-quality work. We believe that the community benefits the most when great working relationships are formed between professionals within the community. It is through these relationships that they can get the best service available - even after physical therapy.

The clinic will bring high-quality physical therapy and sports related rehabilitation to all levels of athletes in the Monterey area – even those who may not consider themselves an athlete. There is an athlete inside all of us, and we are dedicated to providing professional level therapy to our patients and look forward to assisting them in their pursuit of their personal goals.
